THE LABOR TROUBLES.

STRIKERS STILL TURBULENT IN EAST ST. LOUIS.

Another Opinion from Gould—Powderly's Popularity—The Engineers Moving.

[SPECIAL BY TELEGRAPH TO THE RECORD-UNION.]

NEW YORK, April 7th.—With reference to the manifesto of the Knights of Labor, published this morning, Mr. Gould's representative said: "These people seem to forget that coal was made 25 per cent. cheaper throughout the Southwest by Mr. Gould when he opened the railway system there. The people through that country are in favor of the company, which shows that the statements made this morning are absurd. The Knights, because the Kansas City *Journal* denounced the acts of the strikers, demanded that the Union News Company should not deliver any of the papers of the *Journal*. Mr. Hoxie then notified the News Company that no other papers should be carried if it did not deliver the *Journal* as usual. The News Company therefore decided to pay no attention to the order of the Knights. Mr. Gould said that the manifesto of the Knights would not have much effect on the people, especially the people of the Southwest, and he did not seem at all disturbed."

DAY OF EXCITEMENT IN EAST ST. LOUIS.

ST. LOUIS, April 7th.—A large crowd of strikers, numbering about 1,000, formed in East St. Louis this morning, and marched to the Ohio and Mississippi depot, where they compelled the platform men at work to quit and join their ranks. They then advanced upon the Vandalia yards, where the same scene was enacted. From that point they marched to the Burlington yard and forced all the employes there to leave with them. Up to this time the mob had met with no serious opposition; but when the Chicago and Alton yards were reached the crowd found a large force of Deputy Marshals, armed with Winchester rifles, barring their way. The officers ordered the mob back, and threatened to fire upon them if they advanced. This had the desired effect, and the strikers turned and marched to the Cairo Shortline yards, forcing the men found at work there to leave their positions. The mob then dispersed, having accomplished their object, but not before calling a meeting of all strikers, to take place at Flannigan's Hall, where resolutions will be adopted declaring that no one will be allowed to fill the strikers' places. Adjutant-General Vance was a spectator of the action of the mob, and has telegraphed the situation to the Governor.

THE ENGINEERS AND FIREMEN.

ST. LOUIS, April 8th.—The engineers employed upon railroads centering in East St. Louis decline to state the cause of Chief Arthur's presence in the city, or its probable effect upon the extension of the strike to other departments of roads than those now involved. A prominent member of the Knights of Labor, however, when questioned as to whether the engineers would support the strikers, said: "That is just what they are going to do. You can depend upon it. Arthur, to be sure, is opposed to strikes, but such pressure will be brought to bear that he cannot resist. It is declared that engineers on all roads centering in East St. Louis, except those on coal and passenger trains, will go out to aid the Knights in their fight."

3:05 P. M.—Twenty of the firemen employed upon the engines of the Bridge and Tunnel Company struck to-day in support of the Knights of Labor. This, it is said, others can be found to fill their places, will stop the transfer of all freight and passenger trains over the bridge.

IN SYMPATHY WITH THE STRIKERS.

NEW YORK, April 7th.—Interest in the Southwestern strikes among the Union men in this city continues to grow. The action of the General Executive Board in recalling the order to resume work and in pledging the support of the entire organization to the strike, meets with the approval of the majority of Knights in this region. From a large number of local and district Assemblies resolutions favoring this course and pledging themselves to furnish their quota of necessary funds were sent to Secretary Turner.

ALL QUIET AT THE IRON MOUNTAIN YARDS.

ST. LOUIS, April 7th.—At the Iron Mountain yards to-day all is quiet and orderly. Five switch engines are at work, with crews selected from the road force of brakemen. Twenty of the switchmen employed in these yards returned to work yesterday, but went out again when requested to do so by a committee from the Knights. The yardmaster sent to Desoto for new men, twenty of whom arrived this morning, and are now at work.

MASSING UNITED STATES TROOPS.

WASHINGTON, April 7th.—It is said that the War Department has been making secret preparations for over a week in anticipation of trouble in the West. Should there be a call for troops, the State Governments would render any assistance they could, and, in case of an emergency, the United States troops would be called out. The action of General Sheridan, in ordering troops to assemble at given points, has attained a significance not understood at the time. In the event of a serious conflict between strikers and the railway company, a large body of troops could be rushed to the scene in very quick time.

GOULD'S OPINION.

NEW YORK, April 7th.—Jay Gould said to a *Tribune* reporter yesterday that in his opinion the strike on the Southwestern railroads was ended, and not likely to extend to other lines connecting with them. He added: "There are about 1,300 criminal suits against strikers pending, and the juries, as a rule, do not leave their seats before convicting the strikers. The feeling against the strikers is very bitter in some sections of the Southwest. It is a cruel injustice that a few men should deprive a much larger number of the means of earning a livelihood. The strikers on the Missouri Pacific numbered, for instance, about 3,700, and by their strike 10,000 other workingmen were prevented from earning their daily wages. We promptly discharged all, and the loss has fallen on the laborers and not on the railroad. The pay-roll of the Missouri Pacific averages about $1,100,000 a month, but by the strike it has been reduced to $200,000 or $300,000. The earnings in the last month were some $900,000 less than usual, but the loss was not borne altogether by the company. These considerations are having due weight among business men along the line of our road." Several places against which claims for damages might be brought have sent word, said Gould, that they would pay, without a suit at law, any damages suffered by the railroad company.

POPULARITY OF POWDERLY.

NEW YORK, April 7th.—The *Sun* says editorially: Photographs of General Master Workman Powderly have now a greater circulation than those of any other person known. It is no wonder. Powderly enjoys unusual reasons for the prominence. He possesses the enthusiasm and energy of a social reformer, combined with the poise and shrewdness of a successful capitalist.

THE GRAND MASTER BETTER.

SCRANTON (Pa.), April 7th.—Grand Master Workman Powderly is able to attend to his correspondence, and expects to be sufficiently recovered within a few days to leave his house.

SECRETARY TURNER INTERVIEWED.

PHILADELPHIA, April 7th.—The *Record* to-morrow will print an interview with Secretary Turner, of the Knights of Labor, who stopped here to-day on his way to Scranton to confer with Mr. Powderly. He said: "When we arrived in St. Louis we found that the company would in reality employ no Knights of Labor. What was worse, they were discharging members of the Order who had in no way participated in the strike. In fact, instead of no discrimination, it was all discrimination. The matter now rests with District Assemblies Nos. 101, 94 and 17. I see no chance of settlement. In fact, the situation is worse now than it ever was. Mr. Gould is undoubtedly responsible for the failure to keep the agreement. Mr. Gould talks of the weakness of the Knights of Labor. Well, he may think different before the end of the present troubles. 'He who laughs last, laughs best,'" concluded Mr. Turner.

GENERAL NEWS.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

Decoration Day at Riverside.

NEW YORK, April 7th.—The *Sun* says: The privilege of decorating the tomb of General Grant on Decoration Day bids fair to be participated in by the Grand Army posts all over the country. The Department Commanders of Massachusetts, Pennsylvania and New York are to be present, and the posts in other States will be represented by floral tributes, if not personally. Post R. E. Lee, of Richmond, Va., will send an offering of flowers, and South Carolina will contribute palmettoes. It is expected that 100,000 people will attend the services at Riverside, which will be held in the afternoon, so as not to conflict with the parade. There will be singing by the Amphion Musical Society, and the Seventy-first Regiment and First Battery National Guards will fire salutes over the grave. Minute guns will be fired by United States men-of-war from all parts of the compass. Especially from the South come expressions of a desire to do all honor to the dead hero on the first commemorative day since his death.

Frightful Experience of a Shipwrecked Party.

MEDBURY (Mass.), April 7th.—About 8 o'clock last night the schooner Beta, from Halifax, was driven on the beach of Plum Island. About midnight the proprietor of the Halfway House discovered the vessel, and on going to it found it abandoned. A search among the sand hills revealed a party, consisting of three men, two women and a child. There were about half dead from cold and exhaustion, and were taken to the house and cared for. The Beta, besides her crew of six men, had eight passengers, including two women and three children. When she struck, the passengers were sent to the cabin, where they remained until the heavy sea almost filled it, and drove them into the rigging. A girl of 3 years and an 8-months-old infant were torn by the sea' rom the arms of their mother and drowned. The survivors, soaked with water and half frozen to death, clung to the stays and shrouds until daybreak, when the tide having fallen, a few men got ashore with a line, by means of which all the others were rescued. No names have been learned.

Transcontinenta_ Matters.

NEW YORK, April 7th.—The center of interest in transcontinental matters now is the proposed action of the Pacific Mail Company. The overland companies have reached a point where they practically agree among themselves, but are now, as a whole, at loggerheads with the Pacific Mail. The latter company insists on having a subsidy of $100,000 per month or nothing, while the overland companies want to give only $70,000. This is stated on good authority. Pending the agreement with the Pacific Mail the rates on overland routes will not be advanced, and the position on other matters relating thereto will remain in statu quo.

Legislation in New York.

ALBANY, April 7th.—The bill increasing the salaries of the police Captains of New York passed both Houses here so rapidly as to excite comment. It has transpired that nearly all the Captains were assessed $500 each to help this on, and that the collector of the money was one of the Police Commissioners. None of the money reached Albany, the members voting for the bill in order to stand well with the police and get their support.

Living Pictures of Society Belles.

NEW YORK, April 7th.—The society event of this evening will be a series of live pictures which have been arranged by well-known artists, and will be formed by New York's prettiest society belles. The frames in which the pictures will be formed will be placed on the stage of the little theater in connection with the Metropolitan Opera House. The backgrounds for the various groups have been painted by Hoyt, scenic artist for the Opera House. The house for to-night is entirely sold. Premiums were offered by later applicants, but they were too late. The object of the entertainment is a seaside sanitarium at Rockaway. Among the patronesses are most of the wealthy Californians in New York.

Why Cleveland is a Bachelor.

CLEVELAND, April 7th.—The *Leader* says: Old friends of President Cleveland say emphatically that he will never marry. They say the only woman the President ever really loved has been in her grave more than twenty-five years. He met her when he was a school-teacher in a little town in New York. They loved, but were too poor to marry. Cleveland decided to go West to make his fortune, when his sweetheart became sick and within a few days died.

The Arab Challenge.

NEW YORK, April 7th.—The *Turf, Field and Farm* says: Mr. Willey has now been back in San Francisco long enough to find out whether Morrow and McCord would stand up to the proposition which he made when in New York on behalf of Arab, but as we have heard nothing from him, we take it for granted he is content to be charged with having acted with undue haste.

Movement to Impeach a Judge.

NEW YORK, April 7th.—There is a movement on foot to secure the impeachment of Judge Donahue, of the Supreme Court. Rev. Dr. Howard Crosby and lawyer Francis Barlow are at the head of this. Dr. Crosby announced in January that he would make the attempt, Donohue having granted several injunctions restraining the police from interfering with the sale of wine at French balls. There have always been charges of corruption against Donohue, but nothing was ever proved. It is not known on what the present charge will be based.

FOREIGN NEWS.

The Great Day in the House of Commons.

LONDON, April 7th.—The various whips have arranged with the members of their parties for a postponement until Friday of all questions which were to have been brought up in the House of Commons to-morrow, except those of a most pressing importance. In thus curtailing the business of the House, Gladstone will be enabled to begin his speech in explanation of his Irish home rule scheme at about half-past 4 o'clock in the afternoon. The usual body of policemen stationed about Parliament buildings will be strongly reinforced, to suppress any demonstration that may be attempted outside of the buildings. Irishmen living in London have been requested to assemble to-morrow to cheer Gladstone as he enters Parliament. A similar Liberal manifestation is expected. Urgent whips have been issued, requesting the presence of all members in the House of Commons to-morrow, and on Friday. The House will be opened at 6 A. M. to-morrow, to enable member to secure seats at the opening of the House. The early hour is recommented on adversely, on the ground that it is placing a premium on physical endurance and a handicap upon the invalid members. The Parnellites, at a meeting to-day, decided to enter the House at the earliest possible hour in order to secure seats.

PRESBYTERIAN ANXIETY.

The Scotch members of the House of Commons held a meeting this afternoon to receive a deputation of Presbyterians from Ulster, who came to enter their protest of granting home rule to Ireland. Sir Donald Currie, Liberal member for West Perthshire, presided over the meeting. The Moderator of the General Assembly of the Presbyterian Church in Ireland, who led the deputation, explained the reasons for the visit. He said the Presbyterians of Ulster were in deep anxiety lest Parliament should adopt legislation which would place the Protestant ministry in Ireland at great disadvantage by handing over the control of the affairs of the country to a party distinctively anti-Protestant. The deputation spoke in the kindliest terms of their Catholic brethren in Ireland, but said they feared that the good relations would be disturbed under the new order of things which it was understood the leaders of the Government intended to inaugurate.

RAILWAY DISASTER.

AN EXPRESS TRAIN'S FRIGHTFUL LEAP.

A Plunge Down a 200-foot Embankment—Details of the Catastrophe.

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

GREENFIELD (Mass.), April 7th.—A terrible disaster occurred on the Fitchburg Railway to-night, midway between Bardwell's Ferry and West Deerfield station, the east-bound passenger train due at Greenfield at 6:05 P. M. going over an embankment 200 feet high. Six bodies have already been taken out of the ruins, and it is not known how many others were killed. The train was the eastern express, and consisted of a baggage car, smoking car, mail car and two ordinary passenger cars. The train was in charge of conductor Forster, with Herbert Littlejohn as engineer.

THE POINT WHERE THE ACCIDENT OCCURRED

Is the most dangerous on the road. The train runs on the edge of an embankment 200 feet above Deerfield river. The bank is steep, and is covered with huge bowlders and a mass of rock. When the train arrived at this point the track commenced to settle under it for a distance covering its entire length. The coaches broke from their trucks, and went rolling over and over down the precipice. The engine broke from the tender, tearing up the track for twenty feet. Below rolled Deerfield river, on the very edge of which the cars were thrown. As soon as they struck they caught fire from the stoves. The sleeping car was an entire wreck. It was occupied by several passengers, not one of whom at this hour is known to have escaped injury. One man, whose name is unknown, is imprisoned in the wreck of the sleeper, where he is being burned alive. One little girl was picked up dead. As soon as the news reached Greenfield a special train was made up and sent to the scene of the disaster, having on board several physicians, section men and a few citizens. On arriving at the scene of the wreck

A HORRIBLE SIGHT

Was witnessed. Darkness had settled over the spot, but far down on the river bank could be seen the smoldering embers of the holocaust. It was impossible to tell who was hurt and who was killed. Stout-hearted trackmen were lowered cautiously down the treacherous height, and the work of rescue began. Merritt Pecley, Superintendent of the National Express Company, of Boston, was found on the track and taken into the relief car. He had a wound four inches long and half an inch wide over his left temple. His left thigh was broken, and also his left leg at the knee, besides which he sustained internal injuries, from which he will die. D. Crandall, the postal clerk, was plunged into the river, and got ashore with difficulty. He was wounded about the head, and his arm was fractured. The Fitchburg coach was the only one that escaped the conflagration. Deputy Sheriff Bryant, of Greenfield, who was in this car, rescued two children from the flames, but one was dead and the other dying. Their parents were on board, but cannot be found. Some of the injured and dead were taken to Shellburn Falls, and some of the wounded to Greenfield. C. P. Bell, of Nashua, N. H., was cut slightly on the head and leg, but was not seriously hurt. He was

THROWN HEAD FOREMOST INTO THE RIVER,

And went to the bottom, barely escaping drowning. Conductor Forster is reported safe, and but slightly injured. D. C. Welles, of Andover, had his shoulder hurt and his head cut. The car in which he was riding was broken in two, and stood on end within a few feet of the river bank. Nicholas Dorgan, of Greenfield, had his left arm and ankle broken, and was seriously injured internally. A little girl, who was a passenger on the train, died in his arms from injuries received. J. E. Priest, of Littletown, N. H., had his face and head cut. Engineer Littlejohn, of North Adams, was badly scalded, it is believed fatally. A. K. Warner, Chairman of the Greenfield Board of Selectmen, was badly hurt, but his injuries are not fatal. Great excitement prevailed all along the road between here and North Adams

PROBABLE LOSS OF LIFE.

Being interviewed by wire to-night, at Shellburne Falls, Conductor Forster said: "I am unable to state how many were on the train. Only three men have thus far been found who escaped injury, and they set the number of passengers all the way from twenty-five to one hundred." No doubt half a dozen were killed outright, while falling, and as many more were fatally injured. The west-bound express was delayed at Greenfield and West Deerfield two hours, while the relief train, with surgeons and their assistants, was sent out on its time. The locomotive is a complete wreck, but remains on the track, while its tender is down the bank. The following persons were taken to Shellburne Falls, more or less wounded: H. G. Littlejohn, brother of the engineer, with his wife and two children, both of whom have since died; A. D. Cornell, Allen Lewis, B. B. Stowe, A. C. Harvey, of Boston, badly hurt; J. P. Fowler, A. R. Warner, of Greenfield, H. Covillard, of Charlemont; E. W. Dunnells, of Waltham; Miss Darby and May Gowing. A Miss Carnell is badly hurt, as is Mail Agent Putney. A. M. Waterhouse is missing. It was reported in Shellburne Falls that eighteen persons were killed outright, but this could not be verified. Fears are entertained that the morning will increase the list of deaths and casualties. A portion of the mail is reported lost in the river.

At 11 o'clock to-night men were still working at the wreck. It is learned that the injured at Shellburne Falls number nineteen.

MORE VICTIMS.

LATER.—Engineer Littlejohn is dying, and Henry C. Covilliard will die before morning. Three more dead bodies have been found at the wreck.

A SALESMAN'S JUMP.

The train, at the time of the accident, was running at the rate of about twenty miles an hour. Frank Lank, of Boston, a salesman for a New York firm, jumped from the train, and is believed to be the only person who saw the cars go down the embankment. He says there were three passengers in the drawing-room car.

THE LATEST FROM THE WRECK.

GREENFIELD (Mass.), April 8th—A. M.—At midnight it was reported that four more dead bodies were removed from the wreck, and it was believed that others had been swept down the river. Of the four bodies, one was recognized as that of brakeman Shyer. It is impossible to give a complete list of the killed and wounded to-night.

THE CHINESE MEETINGS AT THE EAST.

The dispatches recount the raiding of several Chinese opium dens in Chicago, and the disclosure of the fact that one woman was poisoned to death in one of these pits of iniquity. The people of the East have not had the bitter experience of California in this evil of the opium habit. We can wish no ill to our countrymen on the Atlantic side, neither can we regret that some hideous examples of the contamination of Chinese contact are to be found at their threshold. The ghastly exposures of the horrors of the opium joints in Chicago may be compensated for by the conviction that will probably follow in the Eastern mind that California has not misrepresented, in any degree, this terrible evil. It is Chinese in its origin; is fostered by Chinese, and but for the Chinese could easily be crushed out. It is a very easy thing for the Chicago authorities to suppress the few "joints" in that city, and no greater difficulty need be experienced in New York or Philadelphia, but in California it is a widely different matter. Here the Chinese are very numerous, and to keep track of all their crimes and illegal devices to corrupt is quite beyond the capacity and vigilance of our people.

Contemporaneous with the breaking up of the opium dens of Chicago, there is reported an attempt to manufacture sympathy for the Chinese. This takes the form of meetings called at various points in the East to express the sense of the people regarding, and to protest against outrages upon the Chinese. This is but thin disguise, however. The meetings are engineered from below the surface by pro-Chinese emissaries. Assemblages to protest against violence to Mongolian residents could be called here, and would be just as outspoken as those at the East can be. The right sentiment of this people, and it is uppermost, opposes and condemns unqualifiedly any violent treatment of the Chinese, the forcible driving of them from one point to another, or any assaults upon their persons or property. There is reason for Californians to be sensitive upon the question of these Eastern meetings. They will have no voice in them, therefore, no misrepresentations or misstatements—and there will be many—can be corrected on the spot. The mere fact of an opposing sentiment in California to Chinese immigration will be magnified and distorted into enmity that goes about red-handed to slay. The actions of hoodlums here and there on the coast—and which are not so frequent or atrocious as distinguishes marked lawlessness on the Atlantic side—will be held up to Eastern view as representative of the conduct of this people toward the Chinese, and there will be no one to give the lie on the spot, as there should be. We have the consolation of knowing that time will justify this people, but it will require patience—and we have been very patient, and will continue to be. We very much doubt if the older communities of the East would have borne, as has California, for over thirty years the ills of the Chinese invasion with less of murmuring or as few outbreaks of passion. No question can be agitated as has been the Chinese issue and not be made the vantage-ground for some lawlessness on the part of men inflamed by passion or actuated by brutal instincts. More sickening outrages have been perpetrated in the midst of the civilization of the East than against aliens on this coast. The Chinese have beaten, tortured and butchered each other here, maintained secret tribunals, defied the laws, conspired to enslave human beings, bought and sold their own flesh and blood, made life a matter of assassin's barter and truth the shuttlecock of perjury, and yet no protesting meetings have been called by the sentimentalists of the East, while California history is dotted all over with records of public protests. But what can be done by Californians in the premises? Nothing but to continue to be patient; to adhere to the laws; to frown down violence in any form; to see to it that the Chinese have the full protection of the laws; to make it a matter of assurance that no man within our gates, citizen or alien, is deprived of a single right secured him by law or by treaty; to continue to manfully and fearlessly present our claims for relief, and by our conduct testify to the sincerity, honesty and lawfulness of our purposes. Any other line of action will play into the hands of the pro-Chinese advocates and postpone desired relief.

THE PRESIDENT'S MESSAGE.

The message of the President to Congress upon the admission of Chinese of the exempted classes will be liable to misconstruction by careless readers. It must not be taken as expressive of the sentiments of Mr. Cleveland upon the Chinese restriction question. We must assume that he is not only willing, but anxious, that the Restriction Act shall be faithfully executed. Any other assumption would do violence to ordinary justice, and assail his integrity. We have questioned his loyalty to his platform pledge on the Chinese issue so far as it relates to further and needed legislation on the subject. His prior message we have believed, and still hold, is evasive of that pledge, and does not warrant the belief that he is particularly solicitous for the reformation of the present treaties with China, or the repair and strengthening of the present Restriction Act. If this is a correct conclusion, he and his party must answer to the people, and abide the result. But in the present case, it is clear that what he claims is justified by the weakness of the Act we now have. Certain exempted classes are entitled to enter. Under the Act the method for their identification is not provided when they—still being Chinese subjects—hail from ports at which there is no competent authority to issue the necessary certificate. This, he claims, works a hardship, and practically flies in the face of treaty obligations. A remedy he asks Congress to provide, but he suggests none. If then, in answer to this message, any further legislation is attempted, it should be so clear and unmistakable that he who runs may read. We want no more loopholes punched in the Act. It is very like a sieve as it is. The transit orders, for which its lameness was made excusative, worked badly. The Chinese, who are as unscrupulous a lot as can be drummed together on earth, used these orders to evade and violate the law and unlawfully enter and remain in the country. The mere matter of an oath or declaration of intention never stands in their way. The end to be accomplished invariably justifies the means they may see fit to employ to gain a foothold here. They are feeders upon civilizations other than their own. They are pioneers in progress in no sense whatever. They never break the way, or tread paths not already beaten for them. Congress cannot, therefore, hedge about the methods of giving the exempted or any other classes their rights under the treaty too jealously, or set up safeguards too stringent. The treaty obligations must, of course, be observed. We cannot afford to ignore them by refusing to provide for their faithful execution whenever they exist. But we have the right to require such proofs of the integrity and identity of exempt applicants for admission as shall be deemed sufficient by us. We are not bound to set up methods to please the fancy of the Chinese Minister, nor accept his standard of what constitutes right action.

Forged Chinese Certificates.

SAN FRANCISCO, April 7th.—A lot of forged certificates, purporting to have been issued at Port Townsend, and upon which Chinese have been allowed to land, have been returned to Collector Hager by Collector Beecher, of Port Townsend. After a comparison of them with the stubs on file in the Custom-house of the latter port, Collector Beecher reports that 40 of 106 are forgeries, having been altered by means of acids and rewritten. In several the signature of the Deputy Collector, "H. L. Blake," is an apparent forgery, and leads to the inference that many of the certificates were procured from other ports and altered to fit Port Townsend. The forged certificates were received during the months of September, October and November. Collector Hager states that no investigation will be made to discover the Customs Inspector who was detailed at the Victoria steamers during this period. It is said to be a person who was discharged last December.

Grand Lodge of California, A. O. U. W.

SAN FRANCISCO, April 7th.—The Grand Lodge convened at 10 A. M. to-day, the Grand Master Workman presiding.

The basis of representation was changed. Hereafter each lodge will be entitled to one representative to the Grand Lodge for its charter, one for each one hundred members, and an additional representative for a fraction exceeding fifty members after the first one hundred, according to the report of December 31st.

Article XV, Section 1, Subordinate Constitution, was amended, providing that before a fine can be imposed the brothers may claim a hearing before the lodge.

It was ordered that the remittance report from lodges to the Grand Lodge hereafter shall be dated not later than the first of the month.

Section 8, Article XIII, was amended so that hereafter all members who have attained the Master Workman degree at the levying of an assessment shall pay said assessment without regard to the date of death on which said assessment is levied; two weeks grace is given on suspension of lodge certificates; it was formerly one week.

It was ordered that the report of the Grand Medical Examiner shall be in the lodge when the Investigating Committee report on an applicant.

At 12:05 P. M. the Grand Lodge took a recess until 2 o'clock. The unwritten work was exemplified at 1 o'clock.

ELECTION OF OFFICERS.

SAN FRANCISCO, April 7th.—At this afternoon's session of the Grand Lodge, A. O. U. W., the following officers were elected: Grand Master Workman, Edwin Danforth; Grand Foreman, Edwin F. Loud; Grand Overseer, A. C. Bane; Grand Recorder, Horace G. Platt; Grand Receiver, C. H. Haile; Grand Guide, C. Cobler; Grand Watchman, E. F. Thompson; Grand Representative to Supreme Lodge, Duncan McPherson.

Murder and Robbery in Oroville.

OROVILLE, April 7th.—F. W. Miller, proprietor of the Palace restaurant, was brutally murdered in his restaurant about 5 o'clock this morning by some one unknown. The murder was evidently done with a narrow-bitted hatchet, very sharp—the right side of the victim's face and head being all chopped to pieces. There is no clue yet to the murderer, though several persons, both white and Chinese, have been arrested on suspicion. The till of the restaurant was also robbed. Miller was not dead when found, but was speechless, his jaws being split wide open, and, although he got up alone and after the chopping was done walked some distance, he was unable to make any sign to indicate the murderer, and died in about an hour. The town is wild with excitement. No cause for the murder is known, other than the presumed one of robbery.

The Stice Contempt Case.

HOLLISTER, April 7th.—The Board of Supervisors to-day, by vote of three to two, passed a resolution recommending that Judge Breen remit the fine of Richmond Stice, now serving sentence under a fine of $500 for contempt in the Prewitt case. His attorneys are circulating petitions to the same effect. The prosecution will strongly oppose any such measure. By the same vote, the Board refused to employ Campbell of San Jose, who assisted the prosecution in the Prewitt case, for retrial. General indignation prevails, and Campbell will be employed by private subscription.

The Land-Buyers' Excursion.

TULARE, April 7th.—The land-buyers' excursion, 150 persons, arrived in Tulare yesterday, and have been looking at lands since. At 1 P. M. to-day an auction was held in Library Hall, when about six sections were sold at prices from $2 75 to $10 per acre. The sales aggregated $35,000. The lands are mostly dry lands in the southern part of the county. Buyers were here from the northern part of the State and the East. Governor Stoneman spent yesterday and to-day looking at the county, and attended the sale, which he watched with interest.

Counsel Retained—An Examination Postponed.

SANTA BARBARA, April 7th.—In the case of A. P. Moore, the Board of Supervisors have retained J. J. Boyce to prosecute.

The examination of the sureties on the bond of Dr. Crooks has been postponed to April 8th at 2 P. M.

An Electric Plant.

PETALUMA, April 7th.—G. H. Conduet, representing a Chicago house, has a 10-light plant invented by Van Depoele, which he is regulating preparatory to putting it up on the streets the last of this week. The system is an arc lamp and the electricity is produced by a dynamo machine by the same inventor.

Bad Weather for Coursing.

MERCED, April 7th.—The Pacific Coast Coursing Club arrived here last night, but, owing to the continuance of the storm, were delayed in starting out to the coursing grounds till 10 o'clock this morning. Hunting Accident.

UTAH.

The Mormon Conference—Convicted on Two Counts.

SALT LAKE, April 7th.—The fifty-sixth annual conference of the Mormon Church, held at Provo, adjourned to-day. Yesterday it listened to an immensely long address from John Taylor and George Q. Cannon, protesting against the prosecutions, claiming injustice done in the Courts, abusing the Federal officers, and asserting that polygamy was of God, and they would never relinquish it.

Nicholas H. Groesbeck took the stand in the First District Court, Provo, Monday, and testified that the facts in the indictment charging him with unlawful cohabitation, were correct. He was convicted on two counts, and will be sentenced April 13th.

OLD MEXICO.

Troops Defeated by the Yaquis.

TOMBSTONE, April 7th.—A resident of this city, just arrived from Hermosillo, brings news that on Sunday General Otero moved from Buena Vista and had a battle with Cajeme. After a hard-fought engagement Otero was compelled to retreat hastily.

BRITISH COLUMBIA.

Bloody Result of Unbridled Passion.

VICTORIA, April 7th.—At Kamloops, on Monday, two men, named Phillips and Armstrong, had a dispute over a bridle. Armstrong afterwards went into Phillips' house with a club to deal Phillips a blow. Phillips was lying in bed with rheumatism, and seeing Armstrong coming with a club he got his gun, and when Armstrong entered he (Phillips) shot him through the heart, killing him instantly.

No Poison in Red Star Cough Cure. No opiates. It is prompt, safe and sure.

When Not in Positive Agony,

The rheumatic are seldom free from a certain soreness, or stiffness in the joints and muscles, which serves as a constant reminder that the virus only waits an unfavorable change of weather, or the aid of a cold to emphasize its presence with excruciating twinges. To prevent the recurrence and mitigate the pain, there is no finer or safer source of relief than Hostetter's Stomach Bitters, a medicine every way preferable to the poisons, repeated infinitesimal doses of which are taken, to the prejudice of health and the jeopardy of life, and without a permanently remedial effect. Sleep banished by rheumatic and neuralgic pain at night, is restored by this beneficent soother of the nervous system, and the slumber which it superinduces is far more refreshing and beneficial than the stupor into which the brain is thrown by a narcotic. Appetite and digestion, as well as sleep, are improved by it, and it is an admirable regulator and tonic for the bowels and kidneys. Use it for rheumatism before retiring.

"HOW ARE we ever going to get through our spring and summer's work? We are all run down, tired out, before it begins." So say many a farmer's family. We answer, try Ayer's Sarsaparilla. This is just the medicine you need, and will pay compound interest on the money it costs you.

IF YOUR complaint is want of appetite try half a wineglass of Angostura Bitters half an hour before dinner. Beware of counterfeits. Ask your grocer or druggist for the genuine article, manufactured by Dr. J. G. B. Siegert & Sons.

LOCAL INTELLIGENCE.

Board of Supervisors.

The Board met yesterday, all the members present. Minutes read and approved.

The Committee on Roads and Bridges submitted the following report: "Your committee, to whom the matter of purchasing the Twelfth street bridge was referred, beg leave to report as follows: After referring to the opinion of Mr. Catlin in regard to the time when the franchise on said bridge will expire, we are of the opinion that it is for the best interests of the taxpayers of both city and county to have the bridge free, and would therefore recommend that the Chairman of the Board be instructed to negotiate with said bridge company, and he is hereby instructed to purchase said bridge at the lowest possible terms, not to exceed $2,500, to be paid out of the general fund."

On motion of Mr. Steinman, the report was adopted unanimously.

George Ohleyer, of Yuba City, Secretary of the Anti-Debris Committee, appeared before the Board and made a very encouraging report as to his experience during his recent visit to Washington, D. C., to urge upon Congress the necessity for doing something to prevent the rivers being filled up and properly destroyed by mining debris. His visit resulted in the anti-hydraulic mining memorials sent to Washington being dug out of pigeon-holes in which they had been stowed away and brought forward for consideration.

On motion of Mr. McMullen, the Hentz road, on the Norris Grant, was declared a public highway, in accordance with the report of A. G. Winn, Surveyor.

Mexican and Spanish Land Grants.

State Surveyor-General H. I. Willey has completed, and had printed, a corrected list of the Spanish and Mexican grants in California. Those in Sacramento county are as follows: Cosumnes, the heirs of W. E. P. Harinell, confirmee; 26,605.37 acres; patented April 29, 1869. New Helvetia, in Yuba, Sutter and Sacramento counties, John A. Sutter, confirmee; 48,839.30 acres; patented June 20, 1866. Omochumnes, Catharine Sheldon et al., confirmees; 18,661.86 acres; patented July 1, 1870. Rancho Del Paso, Samuel Norris, confirmee; 44,371.42 acres; patented May 4, 1858. Rio De Los Americanos, J. L. Folsom, confirmee; 35,521.36 acres; patented November 4, 1864. San Juan, Hiram Grimes, confirmee; 19,982.70 acres; patented July 9, 1860. Sanjon de los Moquelumnes, heirs of A. Chabolla, confirmee; 35,508.14 acres; patented May 30, 1865. This grant is situated in the southern part of Sacramento and northern portion of San Joaquin counties. The largest grant in the State is that of Santa Margarita y Las Flores in San Diego county, which embraces 133,440.78 acres.

No Editor Need Apply.

A reporter asked the Governor's Private Secretary yesterday if there were any more pardons to record. When he was informed that there were none, the news-gatherer ventured to say that he thought the commutation of Brick was enought to last for a time, and intimated that if Brick could obtain a pardon or commutation, any one else was surely entitled to one. "Never you mind," replied the Secretary, as a suggestive smile played over his handsome features, "just you wait until a newspaper reporter or an editor comes before us for a pardon. You will find that sympathy and executive clemency will then be dealt out, as it ought to be, in homeopathic doses."

The Cottony Cushion Scale.

EDS. RECORD-UNION: We are inviting people to come here and go into the fruit-raising business. At the same time the cottony cushion scale is firmly fixed. It has appeared on Seventh and F streets—the same place they were last year—and on E and Seventh streets, and it is spreading, now the weather is growing warmer. The law to disinfect or cut down trees went into effect April 1st. Notwithstanding due and public notice was given in the RECORD-UNION, nothing has been done, and the scale insect is happy. Where are the bug inspectors? G. S.

A NEEDY CASE.—On Tuesday evening the 4-year-old daughter of A. B. Haney, who resides on Twenty-second street, between I and J, died. The family, on account of protracted sickness, has been in straightened circumstances for some months past, and during the time has been generously assisted by Warren Relief Corps and by private aid. The Board of Supervisors yesterday appropriated $18 to assist in defraying expenses of the funeral of the child, and $10 55 was also raised from donations of citizens. Upon solicitation of a committee from Warren Corps, Wilson & Mitchell also donated the use of hacks for the funeral. A surplus above expenses, amounting to about $9, will be turned over to the family. Mrs. Haney is lying very low with consumption.

COUNTY HOSPITAL MATTERS.—Dr. G. A. White, Superintendent of the County Hospital, makes the following report for March: Number of patients in the hospital March 1st, 162; admitted during the month, 58; died, 5; discharged, 63; remaining April 1st, 152; meals furnished destitute applicants, 320. The deaths were as follows: Michael Schaeifer, 53 years of age, a native of Germany, consumption; David Gough, 72, Ohio, apoplexy; Joseph Ammon, 28, Switzerland, hemorrhage of lungs; L. W. Tilton, 57, Massachusetts, disease of heart; Jesus Conisales, 52, Mexico, hemorrhage of stomach. The expenses for the month amounted to $1,913 46—$748 66 for salaries and $1,164 80 for subsistence.

THE HOWARDS.—The report of the Howard Benevolent Association for March shows 35 men, 63 women and 136 children, making a total of 234 persons, assisted by the granting of 1,511 dispensations. The collections from subscribers for the month were $94 50, collections at the polls at last city election, $46, and a donation of $15 from Mrs. E. B. Crocker from the Citrus Fair. The expenditures for the month show an aggregate of $391 54.

PIANOS.—Ten different makes to rent or installments. Latest music. Also, new stock of musical goods just received at Cooper's music store, corner Seventh and J. John F. Cooper.

MUSEUM ASSOCIATION,

Dr. Cluness' Lecture Last Night to a Crowded House—Presentations.

The hall of the Museum Association was crowded last night, and the lecture committeemen were put to their wits' end to provide seats for auditors. Many could not get into the room, and a large number stood all the evening. The large attendance was due to the interest felt in Dr. W. L. Cluness' lecture and narrative on his trip to Alaska. Vice-President Ray presided, and in calling to order outlined the scheme of the Association, what it was striving to do for the good of the community, and appealed for members, as workers are needed to build up a museum, and in which work there is profit and pleasure to all concerned. He then introduced Dr. Cluness, who partly by reading from MS., and partly by recital, gave a thoroughly interesting account of a summer trip to Alaska. He held his audience easily, though the lecture and narrative were long, but not a whit too long. The profound interest manifest was the highest commendation that could be given of the lecture. It was the story of an observant man, careful of his expressions, evidently solicitous not to over-color, and yet who found it difficult to describe the grandeurs of scenery and the wonders of a strange land as he desired to do. The chief points of interest—no synopsis being attempted—were the description of the waterway along the coast and between islands and shores, from Port Townsend to Sitka—a perfect panorama of unfolding beauty; the approach to Sitka; the labors of the pioneer philanthropist, Duncan, among the Indians; the glacier fields; the harbor of Sitka, strangely resembling the bay of Naples; the whites and Indians of Sitka; the totem poles of the natives; the "Muir Glacier" and the indescribable grandeur of a view he obtained when an enormous mass of ice was precipitated into the sea, hundreds of feet in light and thousands of feet long. At the conclusion of the lecture, Dr. Pyburn, with prefatory remarks, moved a vote of thanks to the speaker, and they were voted by the membership, which, with the visitors, had been entertained and instructed, and on many matters, probably, disabused of false impressions concerning the climate, topography, extent, shore-line and general characteristics of Alaska.

After the lecture the Museum Association held its meeting. G. M. Mott and P. E. Platt were proposed as members. Dr. Cluness' name was submitted for life membership; Miss Mary Anderson's, as a patron and for a life membership donation, and all were referred to the Directory. By Mr. and Mrs. David Johnson the Association was presented with a large and valuable collection of California birds, properly prepared for scientific preservation. They were collected by George Walter Johnson, their son, recently deceased, and who was a member of the Association. Mrs. Charleville presented a South Sea Island rug; John Douglass, two specimens of moss agate and an ancient German book. Dr. Pyburn presented nine additional botanical specimens to the valuable herbarium—Ranunculus Californicus; Nemophila insignis; Platystemon Californicus; Orthocarpus erianthus; Mimulus tricolor. The same gentleman also exhibited under two fine microscopes slides with human muscle taken from one who died of trichinæ spiralus. The trichinæ was plainly to be seen and easy of examination. The Association resolved to meet next Wednesday night to consider the one subject, "the Museum work." It fixed April 28th for its next lecture, and then adjourned.

State Library Deputy.

The Oakland *Tribune* thus refers to the new appointee to deputyship in the office of State Librarian:

"Frank C. Jordan, who for the last five years has been in the office of his brother-in-law, Hon. Henry Vrooman, leaves today for Sacramento, to take a position as deputy in the State Library. He has been appointed to this position by the State Librarian, T. H. Wallis, for the term of four years, ending April 6, 1890. It will be remembered that at the last regular session of the Legislature five trustees were chosen who were favorable to the re-election of Mr. Wallis, and by these trustees he was re-elected for the term of four years, from April 6, 1886. The appointment of Mr. Jordan to a deputyship is a graceful compliment by Mr. Wallis in recognition of the hearty and unanimous support given him in the caucus by the Republican delegation from Alameda county. It goes without saying that in the person of Mr. Jordan the compliment has been most worthily bestowed, and meets the most cordial indorsement of all parties. Frank is one of Oakland's representative young men, and it will be no discredit to this city to have him at the Capital as a type of the new generation of Oaklanders. Frank by name and frank by nature, obliging, genial and uniformly courteous; well-informed, industrious and steady, he will be an important addition to the very efficient corps of officials who for four years are to manage our State Library."

Mr. Jordan was in Sacramento during the last two sessions of the Legislature, connected with clerical work in the Senate, and won a host of warm friends. They are gratified at his recent appointment. Mr. Jordan will bring his family to this city in a few weeks for permanent settlement.

Sergeant Barwick's Report.

The rainfall yesterday was .22 of an inch, making .59 of an inch for the storm, .89 of an inch for the month, 11.81 inches for the year. The rainfall for the season up to January 1st was 17.20 inches, added to 11.81 inches that have been precipitated since January 1st, gives a total of 29.01 inches of rainfall for the season, being 3.78 inches less than the last wet season, that of 1857-8—32.79 inches. The barometer at noon yesterday was slowly rising along the Pacific coast, with northwesterly winds prevailing. A slowly-rising barometer (meteorologically speaking) is usually accompanied and followed by settled weather. The rainfall for the storm just ended, up to 7 o'clock last night, at each California Signal station was: Red Bluff, .08 of an inch; Sacramento, .59 of an inch; San Francisco, .75 of an inch; Keeler, a sprinkle; San Luis Obispo, 1.35 inches; Los Angeles, 1.10 inches, and San Diego, .32 of an inch. The barometer at 7 o'clock last night was slowly rising from Tatoosh to San Diego, with westerly winds, and weather generally clear. Light rain was falling at but one Signal Service point along the coast, that being San Luis Obispo.

THE NICOLAUS CHINESE EXPULSION.—On Monday last a writ of error was sued out of the United States Circuit Court, San Francisco, in the case of Thomas Baldwin, one of the residents of Nicolaus, who was committed by Commissioner Bugbey of this city, for driving Chinese out of that place, returnable before the United States Supreme Court on the 20th instant. The transcript on appeal will be forwarded in a few days to the Supreme Court, when the case will be placed in advance on the Court docket. As the Supreme Court adjourns on May 5th for the term, and by rule of Court no cases can be argued by counsel for ten days prior to that date, but little time remains for the submission of the cause. Counsel have forwarded their briefs to the Clerk of the Court.

POLICE COURT.—In the Police Court yesterday the cases of R. C. Woodside and W. L. Curtis, charged with rape, were continued until to-morrow.....The case of Andrew Walker, accused of disturbing the peace of his wife, was dismissed at her request.....Hank Snow, arrested for having been drunk, demanded a jury trial, and the case went over until to-morrow.....Henry Wolf was tried on a charge of vagrancy, acted as counsel for himself, and made a desperate defense, but was convicted, and sentenced to 60 days in the county jail.

CAPITAL TURF CLUB MEETING.—The annual spring meeting of the Capital Turf Club will commence Tuesday, the 20th instant, and continue till the close of the week. A glance at the programme, published in our advertising columns, will show that the meeting will be exceedingly interesting, and, as the weather will probably be well settled by that time, the attendance of those delighting in the sports of the turf will doubtless be sufficiently large to recompense the club for the great expense it has incurred.

FINE LEMONS.—No finer lemons can be found, imported or otherwise, than were yesterday examined, from the premises of H. G. Smith, at Ninth and E streets, in this city. The variety which is generally brought from Sicily and sold in our markets is equaled by the same kind grown in Mr. Smith's yard. A mammoth variety, but of excellent flavor and texture, was also examined. Both demonstrated the fact that this is the natural home of this class of citrus fruit.

THE NATOMA SCHOOL MATTER.

Letter From Superintendent Bishop in Justification of His Course.

EDS. RECORD-UNION: Well knowing your readiness to see that no injustice is done to any one in the columns of the RECORD-UNION, I beg leave to reply to an anonymous communication which appeared in the RECORD-UNION during my absence from the city, on the 13th ult., signed "Taxpayer." The writer says: "Mr. Bishop, therefore, without any investigation of the matter whatever, reinstated her. Mr. Bishop's action is considered by the people here generally to be wholly unjustifiable and in excess of his authority. We would like to know why we elect School Trustees, if not for the purpose of having them manage our school affairs to the satisfaction of a majority of the taxpayers?"

To the first assertion I reply, to draw it mildly, "Taxpayer" is mistaken. I took occasion to refer the matter to the District Attorney of this county, who is my legal adviser, who gave it as his opinion that Mrs. F. Jones had a written contract with the Trustees of Natoma District for an eight months' school. I would respectfully refer "Taxpayer" to Section 1698 of California school law, which reads as follows: "In case of the dismissal of any teacher before the expiration of any written contract entered into between such teacher and Board of Trustees for alleged unfitness, or incompetency, or violation of rules, the teacher may appeal to the School Superintendent, and if the Superintendent decides that the removal was made without good cause, the teacher so removed must be reinstated."

I would also respectfully refer "Taxpayer," and citizens generally who think I have overstepped my authority, to my letter of instructions to the Trustees of Natoma District (a copy of which is on file in my office), and which reads as follows (after giving the reasons for my course): "Now, therefore, by the authority conferred upon me by Section 1698, California school law, I authorize and instruct the Trustees of Natoma District to reinstate Mrs. F. Jones to the position of teacher in Natoma District, unless cause is shown why you should not, on or before March 29, 1886, and to sustain her in that position until she has completed an eight months' term of teaching in Natoma District; said restoration to take effect on or before March 29, 1886."

One of the Board of Trustees came and stated their reasons for their course of action, and in my best judgment no charges of incompetency or unfitness for teaching were alleged that would justify any one in breaking a contract. If "Taxpayer" thinks so, let him give the public his reasons.

In view of the foregoing, will "Taxpayer" please point out wherein I have not investigated the matter properly? Wherein I have exceeded my authority? In regard to "Taxpayer's" query, "Why we elect School Trustees, if not for the purpose of managing our schools?" I would reply that no one disputes that proposition. No one has sought to deny them that prerogative. All that is required of them is to fulfill their contracts and obey the law. Respectfully, CHAS. E. BISHOP,
Superintendent of Schools.

BRIEF NOTES.

There were no arrests made by the police yesterday.

The rain has brought the Sacramento river up to 18 feet 9 inches.

The "Widow O'Brien" company went to Suisun yesterday from Marysville.

A blue and gold party will be given by the ladies of Sumner Relief Corps at Grangers' Hall on Thursday the 15th.

Warrants for the support of the State militia amounting to $8,637 50 were drawn by the State Controller yesterday.

The steamer San Joaquin No. 4 arrived from San Francisco yesterday with merchandise, and returned with a barge-load of wood.

A special meeting of the congregation of the Presbyterian Church will be held this evening at 7:30, to consider business of importance.

Richmond Davis yesterday filed with the County Recorder his official bond as Notary Public, given in the sum of $5,000, with J. P. Counts and Wm. Cummings as sureties.

Grove L. Johnson will deliver an address on "Loyalty" next Monday evening in Young Men's Hall, Sixth street, between K and L. Tickets can be obtained at the hall.

A foot-ball club will be organized to-night at the Court-house. This is the first effort to organize a club of this character in Sacramento, although quite popular in other places.

Members of Naomi Chapter, No. 36, O. E. S., have been invited to visit Yolo Chapter of Woodland to-morrow evening, when the grand officers and District Deputy will be present.

Ten carloads of immigrant passengers arrived from the East yesterday morning. They were a better looking lot than many that have preceded them, and the larger number were young men.

A. Pendleton reports that the rainfall at Nicolaus for the 24 hours ending yesterday morning amounted to .42 of an inch, and, as the weather was still cloudy, the prospects for more rain were good.

Noble Fisher was going about the streets yesterday collecting money for the purpose of salarying boycott spies. Some of the business houses at which he called did not extend him a very cordial welcome.

The Supervisors having agreed to purchase the Twelfth-street bridge over the American, and make it free of toll, the ranchmen on the north side of the river feel like having a celebration of the event.

The Chinese laugh at the boycotters in this city. They say the two anti-Chinese associations have such an interesting fight between themselves for supremacy, that they both have lost sight of John altogether.

Grove L. Johnson says if the proposed Convention of delegates from the anti-Chinese clubs of this county does not agree upon some definite line of action, he is going to get out of the Club and have nothing more to do with it.

The Pittsburg American and St. Louis League Clubs include in their ranks nearly all of the Californians now in the East. The Smoky City team has Morris, Carroll and Brown, while the Maroons have Sweeny, Cahill and Denny.

M. M. Drew says, in reference to an item published to the effect that he and B. N. Bugbey had purchased a $40,000 ranch in Sutter county early this week, that he had nothing to do with the purchase, that having been made by Mr. Bugbey.

George G. Canaan, of Allegheny City, Pa., has written to County Treasurer Kuchler, asking for information concerning James Canaan, or Kannan, who came to California in the early days of the gold excitement, and has not been heard from by his friends since.

An officer brought down from Colusa yesterday afternoon, en route to the State Prison at Folsom, Patrick Brick, whose sentence to be executed for the murder of Andrew J. Jones at Jacinto was last Monday commuted by Governor Stoneman to imprisonment for life.

A petition is in circulation in Woodland asking the Town Board of Trustees to submit to the people at the next municipal election the question of reincorporating under the general law. If the proposition to reincorporate should be submitted and carried, Woodland will go into the class of towns with more than 3,000 and not less than 10,000 inhabitants.

The cases of Curtis and Woodside, charged with rape upon Lizzie Preston and Minnie Strasburg, were yesterday in the Police Court continued until to-morrow. It is doubtful whether the charge can be substantiated; in fact, it is known that in the case of the first mentioned child it certainly cannot be. As regards the other and the defendants a shocking state of morals will probably be shown upon the examination, and the prosecution may have a different ending from what was anticipated.

About 3 o'clock last Monday morning four pistol shots were fired from the sidewalk through the side of a Chinese tenement on the east side of Fourth street, near I, the intention being apparently to kill or frighten the occupants of the premises, Yim Ock and his wife. After firing the shots, one of the two assailants entered, and finding only Mrs. Ock, her husband having run away in alarm, choked her and robbed the premises of what money he could find, then made good his escape. The Chinawoman recognized the robber, and visited Justice Post's Court on Tuesday to have him arrested, but an interpreter was needed, the matter was postponed, and has not been heard of in an official way by the Justice since.

A SAD SUICIDE.

Pathetic Letter from Mrs. Susan Cammett to Her Husband.

[S. F. Bulletin, April 7th.]

Last Sunday, Mrs. Susan Cammett, who for several years had been an inmate of the Napa Insane Asylum, was considered sufficiently recovered to permit her being given in charge of her friends. John Cammett, her husband, took her to his home, 1714 Clay street. Yesterday afternoon Mrs. Cammett informed her landlady that she intended going out to purchase some carbolic acid, and soon after left the house. When Lida, Mrs. Cammett's daughter, returned from school, she found her mother in bed. She was acting so strangely that she became alarmed and summoned the landlady, who sent for a physician, but before his arrival the unfortunate lady died. On a table in the room was a sheet of note paper, on which was written the following:

To My Husband: You have always been kind and good. I have always been a mill-stone around your neck. I am the most unhappy woman living. I might live for years. My eyes are almost blind. I have wished and tried many times to leave this world—fifty-six years of misery. I have never seen a happy day. I wish Lida was never born. I know you will be kind to her. Do not let her go to Grass Valley, but keep her with you. Let Mrs. Love take care of her. She is a kind woman and loves the world. Oh, how I hate the world. I hope Lida will die before you. Tell her not to cry for her unhappy mother. Oh, if I had only died years ago. I thought I could die in Napa, my head was so bad. You will not have a poor blind woman to lead about any more. I hope your life will be happy, and that you will have all the money you need in a short time. Do not forsake my children on account of their unhappy mother. Good-by.

Take care of my Lida. One more Cammett to go after. I wish you had never seen me, then all this trouble would never have happened.

Spoiling His Chances.

The young man is spoiling his chances by singing too loudly. We don't want to spoil our chances for Spring business by talking too loudly about our goods, but we *do* want that people should know just how completely we are equipped.

There's Millinery for example. First came the opening a month ago. Everyone said it was a very complete display. So it was. Two weeks later more goods came. Then we thought we *were* prepared. Now, however, our buyer sends us a very large collection of the very latest Paris and New York novelties. Is it any wonder that we feel we can give the best of satisfaction?

The new collection includes probably several hundred shapes in Hats and Bonnets, besides an army of things in Silks, Fancy Stuffs, Flowers, etc. They're worth seeing.

A lot of Narrow Gros-grain and Velvet Ribbons reduced to 5 cents per yard.

MILLINERY DEPARTMENT.

Parasols.

New Valises and Handbags came from the East last week, and now there is scarcely any size or shape which we cannot furnish.

Some of the Bags are decidedly new, especially the long, cubical ones, made out of grain leather, in tan, orange and brown.

Also, Trunks and Shawl Straps.

THE ARMY BILL DEFEATED IN THE SENATE.

The Silver Question—Presidential Nominations—Complaint of the Chinese Minister.

[SPECIAL BY TELEGRAPH TO THE RECORD-UNION.]

The Discourteous Treatment of the Chinese Minister.

WASHINGTON, April 7th.—The *Star* to-night says: No information has been received at the Department of State or Treasury Department regarding the reported incivilities shown by the Collector of Customs at San Francisco towards the Chinese Minister upon his arrival. It is stated at the State Department that the story is not credited, for special instructions were sent to the Collector by the Treasury Department, at the request of the State Department, to show the Minister all the courtesies possible upon his arrival. The examination of his credentials, it is thought, was for other purpose than to obtain information regarding the attaches, etc., a custom in all foreign countries.

FORMAL COMPLAINT TO THE SECRETARY OF STATE.

WASHINGTON, April 7th.—The Chinese Minister at Washington has made a formal complaint to the Secretary of State in regard to the treatment of his successor at San Francisco at the hands of the United States custom officers. He bases his action on information received from the Chinese Consul-General at San Francisco, who, it is understood, alleges that the new Minister and his suite were subjected to unusual and unnecessary annoyances and discourtesies on their arrival at that port. The Secretary of State referred the matter to the acting Secretary of the Treasury, who this afternoon telegraphed to the Collector of Customs at San Francisco for a statement of the conduct of his officers in the matter. Some surprise is expressed at the Treasury Department that the landing of the Minister should have been attended by any delay or embarrassment, in view of the fact that the Collector at San Francisco had been specially instructed to extend to him the usual courtesies due to a representative of a foreign Government—such as allowing the free entry of his baggage and effects, and affording facilities for his uninterrupted transit to Washington, or wherever else he desired to go. The following is the letter of the Chinese Minister to the Secretary of State:

Referring to your note of the 23d ult., informing me that all necessary instructions were issued to the Collector of Customs at San Francisco "to attend to your (my) successor, Mr. Chang Yin Hon and suite, upon their arrival there, every proper courtesy and attention due to the diplomatic representative of a foreign Government," I have the honor to state that I have just received from the Chinese Consul-General at San Francisco the following telegram: "Minister Chang and suite have arrived. The Collector demanded the presentation of credentials before allowing them to land. After considerable detention, the Surveyor permitted them to land." Accept, sir, the renewed assurances of my highest consideration.

CHENG TSAO JU.

Correspondence on the Chinese Question.

WASHINGTON, April 7th.—The correspondence accompanying the President's message on the Chinese question is very brief. On March 9th the Chinese Minister, in a letter to Secretary Bayard, after citing the so-called hardships of Chinese persons of the exempted class desiring to come to the United States from countries other than China, suggested that the Treasury circular of July 13, 1885, be revoked, leaving the old circular of January 14, 1885, providing that the American Consul at ports where there is no Chinese Consul might issue certificates. In the event this was not done, the Chinese Minister suggested that circulars be issued, providing that when Chinese persons of the exempted class, desiring to come to the United States from countries other than China, and where there is no Chinese officer, may do so on the production of a certificate corresponding to that required by Section 6 of the Act of July 5, 1884, to be issued after ascertaining the facts by the Chinese diplomatic or consular officer stationed at the place nearest to the country from which such Chinese may come, the certificate to be countersigned by the nearest United States consular officer. March 24th the Minister called Secretary Bayard's attention to the cases of Lay Sang, partner in the firm of King Lee & Co., of San Francisco, and Chew Sing, a teacher, who were refused permission to land. This action, he claims, was in contravention of the treaty stipulations. On March 30th the Secretary of State answered both letters, calling attention to the ambiguity of the Act of July 5, 1884, and promising that the whole matter should be referred to Congress. In this letter Bayard says: "Your note of March 9th, instant, recommends that the original provision of the circular of January 14, 1885, be restored. I am constrained to reply that the reasons which led to its abandonment are conclusive against its renewal. The admitted ambiguity and casus omissions of the Act of Congress cannot properly be remedied by executive expedients in the absence of any possible certificate conforming to the requirements of the statute. The evidence in the omitted cases belongs to the class known as parol statute, is obscure and defective as to the competency of agents of the Treasury Department to consider and act upon parole evidence, and ordinarily such evidence is for judicial Courts to weigh and determine. I will recommend to the acting Secretary of the Treasury that in such cases as these on which your present complaint rests, the customs officers at the port of landing be instructed not merely to interpose no obstacle to, but to facilitate the determination by the Courts of the treaty rights of the individuals concerned."

Collectors and Chinese Immigration.

WASHINGTON, April 7th.—The Acting Secretary of the Treasury has instructed the Collector of Customs at Port Townsend, W. T., in cases where Chinese subjects claiming to be merchants, teachers, students and others of the classes excepted from the restrictive provisions of the Chinese Immigration Act, arrive at that port from places in countries other than China where there are no representatives of the Chinese Government, he (the Collector) is to facilitate the determination by the Courts of the treaty rights of the immigration in question, and is not to send back without judicial examination any of them, unless there is positive evidence that they are of the prohibited class.

The Silver Question.

WASHINGTON, April 7th.—While the silver discussion has been rapidly petering out in the House a good deal of interest seems to be felt in the question abroad, judging from reports from the headquarters of the National Bimetallic Coinage Association here. The secretary of the association says: "The number of speeches and pamphlets I have sent out from here since last December is simply enormous. There is a great demand for silver literature. Most of it goes to Eastern and Middle States. You would be surprised at the interest still felt in Beck's speech. I sent out 80,000 copies of it, and the demand continues. His was the first important silver speech of the session, and he is not from a silver State. There is not the slightest chance of any legislation inimical to silver going through at this or any other session. I have no doubt the Bland free-coinage bill will pass the House, and there is a good chance of it going through the Senate."

Unanimously Elected President.

WASHINGTON, April 7th.—Senor Peralta, the Costa Rican Minister, has just received a cable dispatch from the Secretary of State of Costa Rica, announcing the unanimous election of General Jon Bernardo Soto as President of Costa Rica.

Judge Baxter's Successor.

WASHINGTON, April 7th.—Commissioner of Patents Montgomery is mentioned as the successor of Judge Baxter, before whom, had he lived, the great telephone case would have been tried. Montgomery has received assurances from Michigan, his native State, of positive support, and it is said that Attorney-General Garland also favors him.

Nominations by the President.

WASHINGTON, April 7th.—The President to-day made the following nominations: Edmund James, to be Receiver of Public Moneys at Carson City, Nev.; Samuel J. Lorah, to be Receiver of Public Moneys at Central City, Col.; John A. McClernand, of Illinois, to be a member of the Board of Registration and Election in the Territory of Utah; Chris. W. Johnston, to be Register of the Land Office at Roseburg, Or.; W. T. Barney, to be Register of the Land Office at Oregon City, Or.; Charles R. Sauser, of Ohio, to be Agent at the Yakima Indian Agency, Washington Territory; James I. David, of Michigan, to be Agent at the Osage Agency, Indian Territory.

United States Senate.

WASHINGTON, April 7th.—Call, according to notice, proceeded to address the Senate on his resolution instructing the Committee on Public Lands to report a bill to forfeit all railroad land grants not earned within the time specified in the granting Act or Acts extending the time.

Upon the conclusion of Call's remarks the resolution was referred to the Committee on Public Lands.

Hawley then took the floor on the army bill, and spoke in its support.

At the conclusion of the debate the Senate, by a vote of 19 ayes to 31 noes, defeated the bill.

The vote in detail is as follows:

Ayes—Blair, Cameron, Dawes, Dolph, Evarts, Frye, Hawley, Logan, McMillan, Mahone, Mitchell of Oregon, Morrill, Payne, Platt, Riddleberger, Sabin, Sawyer, Spooner and Stanford.

Noes—Beck, Berry, Bowen, Brown, Call, Chase, Cockrell, Coke, Colquitt, Conger, Eustis, Fair, Gibson, Gorman, Gray, Hale, Ingalls, Jones of Nevada, Kenna, Maxey, Morgan, Plumb, Pugh, Saulsbury, Sherman, Teller, Van Wyck, Voorhees, Walthall, Wilson of Iowa, and Wilson of Maryland.

Adjourned.

House of Representatives.

WASHINGTON, April 7th.—The Speaker laid before the House the message of the President on the subject of Chinese immigration. Referred to the Committee on Foreign Affairs.

Willis reported back the river and harbor appropriation bill from the committee. Referred to the Committee of the Whole.

In the morning hour Dunn of Arkansas, on behalf of the Committee on American Shipping, called up the resolution setting aside the 22d, 25th and 26th of May for the consideration of the free shipping bill. Adopted.

The morning hour expired, and the debate on the silver bill was resumed.

At the evening session Symes of Colorado spoke in favor of free coinage.

The House then, at 10:10 P. M., adjourned.

Capital Notes.

WASHINGTON, April 7th.—Secretary Manning continues to improve. The President called upon him to-day.

The river and harbor bill, reported to the House to-day, is amended, appropriating $30,000 for a survey of the San Pablo and Suisun bays, San Francisco harbor, Carquinaz Straits and the mouth of the San Joaquin and Sacramento rivers.

It is reported to-night that Wm. A. J. Sparks, Commissioner of the General Land Office, has been invited to tender his resignation to the Secretary of the Interior to-day.

Blair introduced a bill in the Senate yesterday to provide that eight hours shall constitute a day's work for all letter-carriers, and that their salaries shall not be reduced by reason of a decrease in the hours of labor.

STRICT IMPARTIALITY.

The New Chinese Minister Compelled to Show His Papers.

[San Francisco Post, April 7th.].

His Excellency Chang Chan Chu, Chinese Embassador to this country, en route to Washington, accompanied by a suite of nineteen persons, arrived in this port yesterday. His experience with customs officers will not give him an improved opinion of America's customs or her representatives. Surveyor Tinnin does not propose to allow any citizen of the Flowery Kingdom to enter this port unless he is entitled so to do. Therefore, when the Chinese Minister started to come down the gang-plank, followed by his gorgeously-attired suite, an ordinary United States Inspector of Customs very quietly informed the gentleman that he or his party could not land without showing the proper documents.

"This is outrageous," growled Vice-Consul Bee, angrily; "this is the Chinese Minister—let him pass."

"Can't do it, unless I have something to show for so doing," replied Surveyor Tinnin.

The party went back to the ship, and the Minister's lackeys brought forth a passport from the Emperor of China, directed to President Cleveland, setting forth that Chang Chan Chu was accredited to this country to confer with our Government regarding the present status of the Chinese question.

The Surveyor politely informed the astonished and aristocratic celestial that the Customs officers must have something to show that the party had been properly admitted to this port. The attaches of the Chinese Consulate of this city and the leading Chinese merchants were on the wharf and fairly boiled over with indignation at the fancied insult offered their distinguished countryman; but it was no use, for Surveyor Tinnin was boss of the situation. Mr. Chang remarked that this was only another proof of the barbaric propensity of Americans in general, and wanted to know what he could do to satisfy the presumptious United States official. After a long discussion, a certified copy of the passport was made and delivered to the Surveyor, after which Mr. Chang and his suit were allowed to land. The Embassador was kept on the ship two hours before the trouble was settled. All the Chinese flags in the city were unfurled to the storm in honor of his arrival.

Catarrhal Dangers.

To be freed from the dangers of suffocation while lying down; to breathe freely, sleep soundly and undisturbed; to rise refreshed, head clear brain active and free from pain or ache; to know that no poisonous, putrid matter defiles the breath and rots away the delicate machinery of smell, taste and hearing; to feel that the system does not, through its veins and arteries, suck up the poison that is sure to undermine and destroy, is indeed a blessing beyond all other human enjoyments. To purchase immunity from such a fate should be the object of all afflicted. But those who have tried many remedies and physicians despair of relief or cure.

SANFORD'S RADICAL CURE meets every phase of Catarrh, from a simple head cold to the most loathsome and destructive stages. It is local and constitutional. Instant in relieving, permanent in curing, safe, economical and never-failing.

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and one IMPROVED INHALER, all wrapped in one package, with treatise and directions, and sold by all druggists for $1.

GRATEFUL—COMFORTING.

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavored beverage which may save us many doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—[Civil Service Gazette.

WHEAT—The softness noted yesterday has resulted in a lowering of shipping rates. Exporters this morning placed their limits at $1 32½@1 33¾ ⅌ ctl for parcels that would grade up to the No. 1 standard, though willing to give $1 35 ⅌ ctl for better stock.

No sales on call to-day.

OATS—Receipts to-day footed up 4,400 ctls from Oregon and Washington Territory. Business fair at steady prices. We quote: Surprise and milling, $1 35@1 40; No. 1, $1 22½@1 25; common grades, $1 17½@1 20 ⅌ ctl.

Seminal Weakness. Seminal Emissions, the consequence of self-abuse. CURED AT HOME.

Persons at a distance may be cured at home by addressing a letter to DR. GIBBON, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing ten dollars in registered letter, through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union.
